In light of concerns raised by the Department of Homeland Security and recent legislation to alert communities, our Association and FirstService Residential (our property management company) have taken a proactive approach to increasing resident security. We have instituted a system called RESIDENT ALERT to alert you in the event of EMERGENCIES such as SEVERE WEATHER, CRIME/TERROR ALERTS, etc., as well as NON-EMERGENCIES such as Board meetings, community events, etc. We require your assistance to launch this service:
