The retaining wall plantings were reviewed and future action will be discussed.

The committee reviewed the two corner planting beds in front of the clubhouse pond with David. In the Fall David will trim back shrubs and trees, and remove and add new plantings to enhance these beds, resulting in better views of the pond, gazebo area and clubhouse. Trimming and planting will also be done around the gazebo area.. Design proposals to be presented at Aug. 4th meeting.

The flower bed under the sign on the curb in front of the pond will be expanded approximately two feet on both sides. This will enable more abundant colorful plantings in the future.

David will add annuals to the raised bed under the window at the guard house.

David will submit a proposal in approximately two weeks for landscape enhancements around the tennis pavilion.

All proposed work to be done upon the approval of the Board, except for normal maintenance.

Next meeting is Tuesday, August 4th at 3pm.
